#### DESCRIPTION

Tumla Round is the circular version of Tumla. It goes all in on a more display-oriented approach, with perfectly circular shapes, pushing the visual concept of Tumla to the fullest.

Tumla Round's upright and italic styles were conceived as one, with tumbling motion driving the design.

Its circular shapes tumble in and out of the stems, shifting between the upright and italic, as if the rounded elements were rolling freely until they find balance.

For an extra wow effect, Tumla Round features a Wash mode — an OpenType feature that mixes upright and italic characters within the same style, perfect to engage the eye with dynamic headlines.

When using the variable font, Tumla Round Wash can even be combined with animation to create even more tumbling animated text.
